He was also director and president of the board of the Home Building Fund men's organization.

The coming retirement of seven employees was recently announced. Three men who left company service Nov. 1 for ultimate retirement were David A. Murphy, pumper in Process-LOF; Charles E. Meyers, wiper in Process-Utilities, and Stephen Cox, carpenter B in General Services-Crafts. Three who will retire Dec. 1 are Jacobo P. Henriquez, tinsmith A in Mechanical Trades; Jan G. Croes, mason A in Mechanical-Mason, and Edwin P. Scrubb, senior patrolman in the Lago Police Department. The seventh, Armand C. Hodge, garage will leave Lago Dec. 1.

Mr. Murphy had been at Lago over twenty-nine years. He started with the company Feb. 6, 1930 as a third class pipefitter in Mechanical-Pipe. He remained in the Mechanical he transferred to Process-LOF as a student operator. During the year 1936 he progressed from Process helper D to process helper A. He was promoted to pumper June 5, left for subsequent retirement. He Vincent.

Mr. Meyers has over twenty-six years of service. He started Jan. 25. 1930 as a watchman then became a laborer second class in Mechanical-Instrument in June, 1935. He transferred to Process-Utilities in September, 1935 as a helper and was ultimately named ice plant helper B in May, 1956. He was named a wiper in August of this year. He plans to retire in St. Martin.

Mr. Cox has sixteen years, eight months of Lago service. He joined the company Aug. 26, 1938 as a laborer A in Mechanical-Carpenter.

Pietersz, cleanout shift foreman. all of the Mechanical Department; Louis V. Browne, police sergeant in the Lago Police Department; Everett L. Dodge, group head B in TSD-Laboratories, and Harold V. Massey, process foreman in Process-LOF. Mr. Murray congratulated them for attaining such an impressive employment record with the company and then presented them each with the coveted 30-year certificate and service emblem.

Kelly Joined Lago in 1929

Mr. Kelly began his Lago career Nov. 25, 1929, when he started as a yard laborer. He transferred to Mechanical-Maehinist in May, 1936 as a machinist helper. He was named a machinist C in 1936 and a machinist B in 1937. His promotion to machinist A came in 1939. During his entire thirty years at Lago, he has never had a deductible absence.

Mr. Maduro, joined the company Aug. 24, 1928 as a laborer in Mechanical-Metal Trades. In 1945, he became a laborer A in the dry dock section and progressed to dry dock helper B in 1945 and dry dock helper A the following year. He became a pipefitter helper B in Mechanical-Pipe in 1954 and a pipefitter helper A in 1955.

Mr. Pietersz started with Lago Oct. 24, 1929 as a laborer in the pressure stills. He advanced through the positions of tradesman second class, corporal A, subforeman, operator helper B and operator helper A. In July, 1944, he was promoted to eleanout subforeman and in December of that same year was named cleanout shift foreman, his present position. Jersey Committee Meets at New Hotel

The fourteen participants of the Western Hemisphere Manufacturing Technical Committee's planning meeting decided in a three-day session at the new Aruba Caribbean Hotel to hold next year's general meeting in March. Site chosen was the Diplomat Hotel in Hollywood Beach, Florida.

Members of this planning meeting came from as fur away as Argentina to work up the agenda for next year's general meeting which, in part, will consist of papers presented by member refineries on common problems that have arisen during the past year followed by a floor discussion of these problems.

For the first time since the completion of the Aruba Caribbean Hotel, Lago, host to the planning meeting, utilized the hotel's facilities not only for the daily meetings but to house the participants as well. Most of the visitors arrived Sunday, Nov. 8. The first meeting, opened by Lago President O. Mingus, started Tuesday morning, Nov. 10, and the daily meetings continued through Nov. 12. In addition to the formal workings of the committee, a dinner was held Tuesday night in the Papiamento Room for the WHMTC planning meeting participants and Lago guests.

The group is a committee of Standard O:i Company (N.J.) and is an outgrowth of the Esso Standard Manufacturing Technical Committee which expanded to include other affiliates of Jersey Standard including Lago and Creole. After Esso Standard returned to its original status, which limited members of its technical committee to its domestic refineries, the Western Hemisphere group emerged as a new committee.

Lago employees participating in the planning meeting were C. J. Schwarz, Process Division superintendent and chief chemical engineer in the Technical Service Department, and J. S. A. Moller, TSD supervising engineer. In addition to

Fifty Supervisors Enrolled in IR's MSP II Program

Fifty members of management are participating in the Modern Supervisory Practices II program which started Nov. 16 when thirteen supervisors began the first of four, fiveday sessions. The last group of thirteen will commence its week-long

All participants have completed the MSP I program where supervisors were able to pool their experiences and exchange ideas on various job related problems. In the follow-up program, the supervisors will concentrate on afternoon courses in effective discussion. Morning sessions will be mostly devoted to various plant tours and informational sessions on such subjects as planning and leading meetings, company policy and case studies, off-the-job safety, relationships between Standard Oil Company (N.J.), Lago, Creole and the Venezuelan government and the evolution, structure and function of the Netherlands Antilles government. Sessions begin at 7:30 a.m. and con-

WORKERS FOR Maduro & Sons "pitch" in at the Pitch Pile to bag pitch for a pitch customer in the United States. Pitching hags of pitch, right photo, to a worker on a truck bed is no easy job, especially in the hot sun. Righty tons were hagged recently for shipment to the Wilson Petrolcoke & Carbon Corp. aboard the Solon, bound for Baltimore. So far this year, Maduro & Sons have shipped out 735 tons from Lago's Pitch Pile to the carbon black industry. The bags, left, plainly indicate that the pitch is a product of Aruba. Pitch is also used in making road paving materials. Lago no longer adds to its pitch pile. Pitch is now blended with fuel oils and burned in unit furnaces.

TRAHADORNAN DI Maduro & Sons ta duna un man na Pitch Pile pa pone pitch na saco pa un cumprador na Estados Unidos. Pa hiza e saconan ariba e truck, portret banda drechi, no ta un trabao facil, specialmente den solo cayente. Ochenta ton a worde yená na saco recientemente pa manda pa Wilson Petrolcoke & Carbon Corp. abordo di Solons pa Baltimore. Asina leuw e anja aki, Maduro & Sona a barca 735 ton di Pitch Pile di Lago pa e industria di carbon. E saconan, banda robez, ta indica claramente cu e pitch ta un producto di Aruba. Pitch ta worde usa tambe pa traha material pa umpadra camina. Lago no ta agrega mas na e pitch pile. Pitch awor ta worde mezelá cu combustible y kimá den forna di e plantanan.

Constituyentenan di Lago Sport Park a re-eligi tur cinco miembronan di Lago Sport Park Board den e eleccion di Oct. 28 y 29. Nan ta J. Briezen, Process-Cracking, 1002 voto; R. Q. Kemp, Lago Police, 876 voto; M. Reyes, Mechanical-Electrical, 814 voto; J. M. Kock, Mechanical-Carage & Transportation, 736 voto, y R. E. A. Martin, Mechanical-Administration, 655 voto. Di seis candidato a sigui cu 553 voto.

Ademas di e cinco hombernan aki Lago Sport Park Board ta consisti di A. W. Brokke, J. A. Bislik, H. Ceerman, T. Johnson y J. La Cruz.

Abordo di Andrea Doria cu ta midi 29,083 ton C. G. Kirindongo tabatin 1709 pasagero, mayoria di nan imigrante na camina pa Estados Unidos. Milagrosamente, tur a worde salba cu excepcion di 45. Stockholm a perde cinco tripulante. E bapor Sueco, esun di mas grandi trahá na Suecia y un bapor di 12,165 ton, a dobla tur su boeg, pero ainda e tabata capaz pa camna drenta haaf di New York.

E desgracia a socede pa 11:22 p.m. Andrea Doria a sink net diez-un ora despnes. Perdida di bida a keda limità na un minimo considerando forza di e colision pa motibo cu bapornan den vecindario por a despacha botonan salvavida pa e bapor gedal den kestion di algun momento. Andrea Doria a cuminza leun mahos cu solamente untar di su diez-seis boto por a worde bahá.

E bapor Frances, Ile de France, e bapor mas grandi cu a tuma parti den e salbamento di hende, a baha diez boto dentro di cinco minuut despues di recibi e SOS. Stockholm tambe a manda boto pa e bapor heridá. Ile de France a bolbe pa New Stockholm a yega cu 572.

Andrea Doria tabata traha na 1951 na un costo di \$27,000,000 y tabata P. G. Brown e orguyo di e flota Italiano. Stockholm tabata na camina pa Kopenhagen y tabata solamente un dia pafor di New York. E responsabilidad pa e colision nunca a worde determiná legalmente como e caso a worde areglà pa for di corte.

Stockholm a trece 350 pasagero Aruba incluyendo sesenta y cinco dokter cu ta participa den un cruise. Mientras na Aruba, e pasageronan a pasa un tempo agradable na Arnba Caribbean Hotel nobo.

Schultz's Pencils (Continued from page 4)

when Germany was forbidden to make arms, Hitler kept his skilled craftsnien in training by having them manufacture precision pencils such as the 'pistol pencil' I told you about earlier. They also made compasses, slide rules and the like. There are pencil daggers, too, and the tea gas gun pencils made for bank tel-

"In a sense, a very particular object of being a collector of any kind is to be able to spend many enjoyable hours with other collectors discussing the adventures of your common hobby. But there just doesn't seem to be many other pencil col-

With that Vic departed. The pencil he had been toying with had been left behind on the desk. It was of no use to his collection. Had it been, it would someday have been displayed in the Schultz Pencil Collection.

The board was congratulated by members of management for its initiative and for the responsibility it has displayed in maintaining an excellent program of activities at the Sport Park.

Stockholm

(Continued from page 1) Fls. 35 Andrea Doria began listing so badly that only half of her sixteen boats could be launched.

The French liner, Ile de France. argest ship in the rescue operation, launched ten lifeboats within five ninutes after receiving the SOS. The Stockholm also sent boats to the mortally wounded liner. The Ile de France returned to New York with 753 survivors aboard and the Fls. 25 Stockholm arrived with 572.

The Andrea Doria had been built Fls. 100 in 1951 at a cost of \$ 27,000,000 and Mech.-Garage. Install 2-1,8" grease was the pride of the Italian cruise fittings on front fork of scooters fleet. The Stockholm was bound for Copenhagen and was just one day Fls. 75 out of New York. The responsibility Mech.-Garage. Change power-take-off on B-45-7 from cable to lever, tixed as the case was settled out of

The Stockholm brought 350 cruise passengers to Aruba including sixty-five physicians taking part in a medical summer cruise. While in Aruba, the passengers had a special party at the new Armba Caribbean Hotel, many went sightseeing and all were given the opportunity to visit island shops.

Island's First **Pocket Guide** Is Published

Aruba's first complete pocket guide for tourists recently appeared in such convenient visitor attractions as the new Aruba Caribbean Hotel. Fls. 20 The attractive booklet, which features a four-color cover enclosing Fls. 20 ninety pages, was released in September and 10,000 copies were initially printed. It is not for sale but is free to tourists visiting the island of Aruba.

A photograph of the new hotel steaming in connection at tar heat sets off the cover which headlines exchangers crude outlet line to crude the pocket guide in both English and Spanish. All copy and most advertisements are in both languages. Published by Daal's Publishing and Trading Company, it gives the visitor information from A almost to Z. The author has included historical facts about Aruba, the island's climate, ethnology, population, languages, government, religion and commun

> Also included in the pamphlet are places of interest for tourists both for sightseeing pleasure and recreation. Consular and medical information are included as well as shipping information, import and export statistics and air traffic facts.

> The book makes it easy for the visitors to locate almost all island merchants with a variety of goods to expedite shopping while on the

Lab-Storehouse Team New LSP Football Champs

The Lab.-Storehouse footballers took the measure of the Carpenter & Paint team last Sunday to win the Lago Sport Park inter-departmental football competition by a score of 4

The week before everyone seemed to be scrambling for the top spot. Process took the long walk when it lost to Lab.-Storehouse in a 3 to 1 contest. Carpenter & Paint headed for victory row by crushing the Machinist squad - defending champions - in a 7 to 1 slaughter. Meanwhile, TSD Engineering set its sights on the victory cup after whipping Pipe in a 4 to 2 contest. Lab.-Storehouse stopped the Yard team 5 to 4 and seemed ripe for the champion-

Carpenter & Paint and the TSD Engineering teams were the only others left in the race. Then on Nov. 11 the two teams met and Carpenter & Paint came from behind in the second half to stop the engineers 5 to 3 in a hard-fought contest.
